

PAULA FERREYRA

INFORMATION SYSTEMS DEVELOPER

SUMMARY

I am a fourth-year student in Information Systems Engineering with experience in web development and advanced programming. My education allows me to combine technical skills in programming languages with a solid focus on systems management and data analysis. I strive to design efficient, secure, and scalable solutions and am always looking for opportunities to apply my knowledge in innovative projects. I am committed to continuous improvement and growth in the technology field.

LANGUAGES

- English: B2
- Spanish: Native

ACADEMIC BACKGROUND

- Information Systems Engineering (National Technological University, 2020–Present).
- University Information Systems Analyst (National Technological University, 2022–2024).
- Full Stack Developer Course (2022).

SKILLS

- Creative Design
- Strategic Thinking
- Teamwork
- Problem Analysis & Solving

PERSONAL INFORMATION

- Phone: (299) 4095860
- Email: paulaferreyra24@gmail.com
- Location: Mendoza City

WORK EXPERIENCE

Database Developer (2022)

Designed and developed an SQL database for a gymnastics academy, improving data management efficiency and securing sensitive student information.

Full Stack Developer (2023)

Developed a complete web application for a café using front-end and back-end technologies. Created an intuitive interface for users and administrators, integrating features like menu management and online reservations. Also handled database integration for storing product and transaction information.

TECHNICAL SKILLS

- Programming Languages: Java, Python, JavaScript.
- Web Development: React, HTML & CSS.
- Databases: SQL.
- Development Tools: Git, Visual Studio Code, PyCharm, IntelliJ IDEA.
- Agile Development Methodologies.
